AWARDS

MyVodafone App:

- 2nd Place for Best User Experience in Ukraine (2024)

HummingYard Website:

- Honorable Mention at Awwwards (2022)
- Gold Award at w3 Awards (2022)
- Silver Award at Davey Awards (2022)
- “Best Dynamic Website Designs” at DesignRush (2022)

Senior Product Designer / 7+ Years / B2C, SaaS, Mobile & Web

alex.barcenko@gmail.com +351910042087 Porto, Portugal/Remote

SUMMARY

Product Designer with 7+ years delivering measurable results for global brands including Vodafone, Hilton, and Under Armour. Specializes in design systems, UX strategy, and cross-functional collaboration in Agile environments. Leverages AI technologies to accelerate projects and streamline research workflows.

EXPERIENCE

Lead Product Designer Vodafone / Website Dec 2024 – Present

- Led integration of new design team and optimized delivery process through design thinking methodologies.
- Redesigned major functionality, increasing success rate by 6%.
- Implemented DesignOps: pre-planning task decomposition, cross-functional reviews, and iterative validation.
- Applied AI technologies to gather competitive intelligence and market insights.

Product Designer Vodafone / Mobile Aug 2022 – Dec 2024

- Designed mobile app increasing user base by 14% and market rates by 0.5 points.
- Led design system redesign and scaling, reducing development time by 30%.
- Mentored new designer, facilitating onboarding and instilling best practices.
- Conducted user research (interviews, field studies) and analyzed behavioral data via GA4.
- Directed end-to-end design lifecycle in Agile workflows with product managers, QA, and developers.
- Automated user feedback collection and analysis from app marketplaces using AI technologies.

Product/Web Designer Design in DC Sep 2020 – Aug 2022

- Created interfaces for B2C systems and websites, achieving conversion increases.
- Enhanced design QA through streamlined architecture approval processes and standardized interviews.
- Collaborated with cross-functional team of illustrators, developers, and copywriters.

Product Designer Coders Dynamics Mar 2018 – Aug 2020

- Redesigned multi-module HRM system, simplifying workflows and enhancing usability.
- Developed mobile version of web platform, resulting in 25% traffic boost within 3 months.
- Established comprehensive design system, streamlining workflows across 5 modules.

EDUCATION

Master’s Degree in Computer Engineering

Kyiv Polytechnic Institute, Ukraine | Graduated 2019

Design Courses

DataRoot, Ukraine | Mar 2017 – May 2017

- Acquired foundational skills in Photoshop, Figma, user personas, and prototyping.
- Completed a commercial project designing a marble product website.

Projector, Ukraine | Sep 2022 – Dec 2022

- In-depth work with platform guidelines, patterns and components.
- Cross-platform and PWA design, form design for mobile interfaces
- Understanding metrics and how they are affected by design solution
- Documentation and working with a cross-functional team
